Regular readers of this Quarterly Report will notice that we have developed a new format for reporting statistics on undertakings submitted to the EA process.

The new format is intended to provide a more detailed and informative accounting of the status of different types of reviews by current quarter, current year and total branch activity.

Any comments on this new format would be appreciated and should be provided to Gord Gray.

C. DEFINITION OF TERMS USED TO IDENTIFY THE PROJECT REVIEW STATUS IN THE QUARTERLY STATUS REPORT

SCREENING

- EAB** Project is undergoing review by the Environmental Assessment Branch to determine if it is a 'development' as defined under *The Environmental Assessment Act*.
- EARP** Project is undergoing review by the Environmental Assessment Branch and members of the Saskatchewan Environmental Assessment Review Panel (SEARP) to determine if it is a 'development' as defined under *The Environmental Assessment Act*. In addition, copies have been forwarded to the Canadian Environmental Assessment Agency (CEAA) as part of the Canada/Saskatchewan EA Harmonization agreement for CEAA to determine if the *Canadian Environmental Assessment Act* applies.
- NFS** Project has been reviewed and the proponent has been advised that no further screening under *The Environmental Assessment Act* is required.(i.e., an opinion has been provided to the proponent that based upon the information they have provided the project does not meet the definition of 'development' under *The Environmental Assessment Act*). The proponent may now proceed with application for all other regulatory permits/approvals.

ENVIRONMENTAL IMPACT ASSESSMENT

- EIA** Proponent has been advised that their project is a 'development' as defined under *The Environmental Assessment Act* and that they will be required to conduct an Environmental Impact Assessment and seek ministerial approval before proceeding with their project. Studies are being conducted; technical and/or public reviews are in progress.
- Sec16** Proponent of a project that has received a ministerial approval to proceed has now proposed a change in the 'development' that does not conform to the terms and conditions contained in the original approval and must obtain ministerial approval under Section 16 of *The Environmental Assessment Act* before proceeding with their change.
- COM** EIA has been completed and a Ministerial decision has been reached on the project this includes decision under Section 16 of *The Environmental Assessment Act* (changes to a previously approved development).

OTHER

- DEF** A deferred project is one that has been withdrawn from the environmental assessment review process by the proponent.
- INACT** The project has been placed in inactive status by the project manager due to no correspondence for over a year.
